

Technical data:

Heating fuel: _____

Inlet pressure p_e _____

Calorific value H_u _____

Electrics:

Voltage / frequency _____

Oxygen:

Inlet pressure p_e _____

Demand:

- Fast heating

$T =$ _____ °C

$t =$ _____ min

- Drying (monolithic lining)

Material: _____

$T =$ _____ °C

$t =$ _____ h

- Tempering (Bricks)

Material: _____

$T =$ _____ °C

$t =$ _____ h

Ladle lining:

Bottom: _____ m= _____ t

Wall: _____ m= _____ t

Slag area _____ m= _____ t

- Vertical ladle heater

- Horizontal ladle heater

Existing heater:

- Small lid
 Big lid with gap
 Big lid without flexible suspension

T_{max} _____ °C

$t =$ _____ h
